SON UNDER ARREST FOR KILLING FATHER

Kentucky Farmer Is Slain with His Own Gun.

Winchester, Ky., Aug. 11.—Following the discovery of the body of John Shoemaker, 55, in his farmhouse in this county, his son, John Shoemaker, Jr., 30, was arrested charged with murder, and his twin grandsons, Hobart and Herbert Cisco, 17, also were placed in jail. The murder of Shoemaker, who was shot in the face and in the back with a shotgun, is veiled in mystery. His own gun was used to kill him and was left in an adjoining room by the slayer. The arrest of John Shoemaker, Jr., was due largely to the fact that, as the climax of a series of quarrels with his father, the two engaged in a violent argument, which resulted in the son moving with his family from his father's house

I. S. Guthrey, president, and J. W. Campbell, cashier, Campbell National ... LaRue; F. M. Clemans, president Farmers' bank, Mechanicsburg, and J. R. Woods, cashier Farmers' bank, Plain City, were in the city yesterday, says today's Ohio State Journal.

POLICE SEARCHING FOR BANDIT BAND

Three Killed in Attempted Robbery in Memphis.

Memphis, Tenn., Aug. 11 Police and sheriff's deputies of half a dozen Mississippi, Arkansas and Tennessee counties are searching for members of the bandit band whose unsuccessful attempt to rob an employe of the Ford Motor company of pay roll funds amounting to $8,000 resulted in the death of three policemen and the wounding of five other men

The holdup occurred at the entrance to the assembling plant of the company. Three killed were Vincent Lucas, a police lieutenant; Hew and L. Gamble, an employe of the Ford company, and Polk A. Carraway, a patrolman.

Carraway and Gamble were shot to death by the bandits when Edward Mellenry, the clerk in charge of the money, leaped from the automobile in which he was returning from a bank with the money with the two officers as a guard, after four men, masked and armed with pistols and shotguns drove alongside his car and demanded the money

Mellenry darted into an entrance of the plant and reached the company's office in safety, with the money intact W. E. Harris, another policeman, was wounded, but not seriously

As Mellenry passed into the company's plant the men jumped into their automobile and escaped.

Lieutenant Lucas is fatally wounded when a posse at Collierville, a suburb, fired on a police car, mistaking it for the automobile in which the bandits were reported en route to that town Joseph Ribillo, Edward L. Herklinger and C. L. Bonds, the latter a policeman, who were riding in the police car, also were wounded.

IN SECLUSION AT KANKAKEE

Governor Small To Retire to Home Today.

ATTORNEYS LAYING PLANS FOR CLASH

A Battle of Wits in the Case is Now at Hand.

Habeas Corpus Action Rumored, but Legal Lights See No Relief in Such a Proceeding. Sheriff Makes Statement.

Springfield, Illinois, Aug. 11 — Governor Len. Small, of Illinois, was to spend part of his $50,000 "liberty" outside Springfield late today.

The governor's plan called for his departure from the capital, late this afternoon. He intended to go "into seclusion" at his home at Kankakee, including the possible postponement of all immediate engagements. His battery of attorneys, headed now by Corporation Counsel Samuel A. Ettelson, of Chicago, meanwhile laid plans for the next legal clash with Sangamon county officials—a habeas corpus proceeding. The legal aspect of the case developed into a battle of wits between opposing counsel.

The governor, in a bitterly caustic statement late yesterday, blamed his predicament on the Sangamon county "vice ring" and openly threatened retaliatory prosecutions. His statement was interpreted, today, to indicate his legal advisers intended to investigate state war contracts. This reference was closely associated with his naming of a "war board," early in the week, to probe the adjutant general's department.

A Counter-Attack.

Sheriff Henry Mester, today, counter-attacked the governor for his statement. The sheriff took exception to the governor's charge that his deputies were "picked from the slums of Springfield."

"I deeply regret the governor was so poorly advised of my visit to the statehouse," said the sheriff. "I took along a few of my regular deputies because the governor had declared he would not submit to arrest. I was prepared to arrest him by force."

The sheriff also denied that the governor was jeered while in the former's office. He declared it was the governor's own friends who thronged the corridors of the statehouse and court-house before and after the arrest.

Attorneys for both sides, meanwhile, were deving into dusty lawbooks, seeking precedents and opinions on the usage of the habeas corpus. They willicly admitted that this action loomed as the next step "at law."

A report that the habeas corpus action would be taken before the state supreme court, was discounted by legal authorities here. All indications now point to the proceedings being brought before a Cook county judge at Chicago.

POLICE

Arrested for Attack.

Homer Willis, aged twenty-five, No. 403 Uncaphor avenue, was arrested at his home about 8 o'clock Wednesday evening charged with making an attack on Mary Green, aged thirteen years, daughter of Mr. and Mrs. Ivan Green, No. 721 Wood street. According to the girl, Willis, who is married and a neighbor of the Green girl, took her in his automobile about 6:30 o'clock Wednesday evening. They were gone for an hour and returning he let her out more than a square from the house. After her mother heard her story, she notified the police.

The Moser-Welteraner families will hold their reunion Sunday at Indian mill, two and one-half miles north of Upper Sandusky.

INSANE AIRMAN ATTACKS HIS PILOT

Aldershot, Eng., Aug. 11—Because engine trouble caused, due to dropping a few feet while flying at a height of several thousand feet, a mental observer of the royal air force Wednesday imperiled his own life and that of his pilot before he finally did him by beating the latter on the head on the way to the ground.

Flight Lieut. Bulman, the pilot, realized the observer was acting strangely and immediately began to descend. He had hardly started to do so when the observer began striking him terrific blows. The machine landed in a crash, but neither man was injured by the shock. Bulman, however, had a hard fight to restrain the observer, who did not become normal again for half an hour.

WILL CONTINUE THE RATE PROBE

To Learn Its Effect on Price of Farm Products.

BELIEVED RATES ARE BURDEN TO FARMER

Governor Davis Asks for Farm Experts To Report Regarding Effect on Agriculture.

Columbus, Aug. 11—A probe of railroad freight rates on shipments of agricultural products, seeds, fertilizers, implements and other commodities raised, or used, on farms, will be made by the state utilities commission after the commission completes its inquiry into freight rates on road building material, it is announced.

"High freight rates are a material factor in keeping up prices on practically all commodities," declared Governor Davis, who has asked State Director of Agriculture Taber to invite officials of the Ohio Farm Bureau federation and of the Ohio grange, to select experts to submit the agricultural case to the utilities commission.

"The effect of high freight rates on the farmer is not only burdensome on agriculture generally, but is reflected directly in the cost of his products to the consumer," continued the governor.

"If these rates are higher in Ohio than in some of the surrounding states, as appears to be the case with respect to highway material, they constitute a heavy burden on the people and should be promptly reduced."

VILLAGE RECORDS SHOW ILLEGALITIES

State Examiner Makes Report on Kenomre Village.

Columbus, Aug. 11.—Findings totalling over $1,000 are contained in a report made public today, by the state accounting bureau, covering an examination by State Examiner W. G. Grady, of the Kenmore village records, Summit county, January 1, 1919, to June 6, 1921.

Examiner Grady held that alleged excessive and illegal salary payments should be returned to the village treasury as follows: Aaron Taylor, former mayor, $300; W. W. W. Shank, former clerk, $200; E. A. Schlegel, former clerk, $100; A. A. Kepler, former treasurer, $120 and I. C. Lawson, former marshal, $360.

Wrong calculation, Examiner Grady said, is responsible for erroneous payments of $265.22 to H. C. Peter and C. A. Werner, on the Jersey avenue improvement when only $167.22 should have been paid. Peter and Werner were asked to pay back $98 to the village.

The Commercial Savings & Trust company, it was stated, adjusted a finding of $201.25 registered in favor of the village and against the Kenmore board of education. Grady said the bank incorrectly charged coupons on bonds indebtedness against the bond and coupon account of the village, instead of against the school board.

LEADERS ARE WORKING HARD

Republicans Driving To Get New Legislation Through.

IN HOPE OF TAKING RECESS OF A MONTH

Certain Legislation Must Be Passed Before Contemplated Recess Becomes Actuality.

Washington, Aug. 11—Hopes of Republican leaders of the senate for a thirty-day vacation beginning August 20, were dimmed slightly, today, when a demand was made by senators from western states for action on the pending "good roads" legislation before a recess is taken.

Dangle a Hope.

Washington, Aug. 11—Republican leaders in congress oiled the wheels of legislative machinery, today and dangled the hope of a thirty-day recess before the eyes of the lawmakers, with the promise that they could have it if certain expectations of the administrations are fulfilled during the coming week.

Differences of opinion exist between senate and house leaders as to the probable date for the beginning of the proposed summer vacation.

Senate chiefs insist that the measures upon which action is demanded by President Harding before a recess can be taken, may be disposed of by August 20, while house leaders declare that it is likely to take longer.

It may require "steam roller" methods to carry out the will of the Republicans who believe it is possible to meet the desires of the administration during the coming week and their efforts will undoubtedly result, according to the expression of one leader, in "finding a way for the majority to legislate."

Despite the fact that the present extraordinary session of congress was called for the express purpose of revising the revenue laws and enacting a new tariff law, neither of the pending bills has reached the stage where it can be acted upon finally, so the administration had turned its attention to other measures, designed to restore normal conditions.

If the house gets the revenue bill out of the way by the end of the week and then turns its attention to other matters it is possible that the senate will adjourn for three days at a time under special agreement, until conferences on the anti-grain gambling, the export financing bill, can be completed and approved and the tariff extension resolution passed and sent to the president. There is a chance that both houses will remain in session until September.

He was president of the Ohio Auditors' association in 1917-18. Although a native of Cincinnati, he has lived in Painesville since 1884.

New York Police Searching for Alleged Maniac.

New York, Aug. 11—The mysterious "woman beater" who has for some days terrorized widely-separated sections of New York, made his appearance in the noon-day crowd on Wall street, today, viciously attacking and beating up a woman and then fled. A near-panic was caused by the woman's shrieks, joined in by screams from women spectators. Before men witnesses could lay hands on the maniac he had vanished.

A short time afterwards a woman was attacked at Battery place by a man answering the maniac's description, presumably by the same man. The latter assailant escaped all pursuit.

To Insist on Passage.

Washington, Aug. 11—Senator Pope, Republican, Idaho, announced today that he would insist upon the bill as passed by the senate of his bill to provide free tolls through the Panama canal for American ships, despite the opposition of President Harding.

Charleston, West Virginia, Aug. 11.—Frank Dobson, alleged Logan county outlaw, who early this morning engaged single-handed in a battle with state troopers and special officers at his home near St. Albans, escaped by using his wife as a shield. This report was brought here by the detachment of six troopers who were sent, at 1 o'clock this morning, to reinforce the four special officers attempting to capture Dobson, who is wanted in Logan county on a charge of murder.

Scores of shots were fired in the exchange, the narrow approach to the home constituting an excellent means of defense. GRAND JURY IS PROBING CASE

Gathering Facts Touching Murder of Los Angeles Man.

PRISONERS WAIT IN CELLS FOR FINDINGS

Gun Salesman in a Hardware Store Is Regarded an Important Witness Today.

Los Angeles, Aug. 11.—The fate of Arthur C. Burch, of Evanston, Illinois, and Mrs. Madelynne Obenchain, divorced wife of a Chicago lawyer, who are held in connection with the murder of J. Belton Kennedy, wealthy Los Angeles broker, last Friday night, is in the hands of the grand jury, today.

Although not officially announced, it is reported that attaches of the district attorney's office feel confident that indictments will be returned against one and possibly both of the two persons held in the mysterious case. Burch is held as a suspect, while Mrs. Obenchain is in jail as a material witness.

The woman was the only witness to the slaying of Kennedy. She was with him when the shot was fired that ended his life on the steps of his mountain cabin in Beverly Glen.

While the county inquisitorial body today weighed the evidence that has been collected by deputy sheriffs and deputy district attorneys, both Mrs. Obenchain and Burch sat anxiously in their cells eagerly awaiting some word from the jury room.

It was announced by District Attorney Thomas Lee Woolwine that both Burch and Mrs. Obenchain will be taken before the grand jury later in the day.

In response to subpoenas sent out, yesterday, more than fifteen witnesses gathered at the court-house today, to testify before the grand jury. One of the most important witnesses is a clerk in a gun store, whose testimony and identity has been guarded with closest secrecy by the district attorney and other investigators.

Officials admitted, however, that this clerk, late yesterday, partly identified Burch as the man who tried to buy twelve-guage shotgun shells "loaded with balls" from him, ten days ago.

CHILD IS KILLED BY STEPMOTHER

Body In Akron Morgue Bears 200 Welts.

CORONER DECLARES NECK IS BROKEN

Woman Is Held To Answer Murder Charge—Exhausts Self in Beating Boy to Death.

Akron, Aug 11—On a marble slab in the county morgue, today, lies the still body of Ralph Lowe, aged five Coroner Kent, who held an inquest, declares there are 200 or more welts on the little body, also that the neck is broken

In the detention ward of the county jail is held Mrs Hilda Stewart Lowe, thirty-four, foster bother of the boy. She was apprehended late yesterday, after complaint was made that she had brutally attached the little stepson while committing an act of nature while taking his noonday nap

Two other foster children were eye witnesses of the cruel beating, so detectives claim and they told the father.

"I have tried to prevent this very thing," said the father, when confronted by authorities "Two weeks ago I told my wife not to punish my children and to chastise only her own. I told her I would punish my boys when the occasion required"

The little boy's mother died two years ago, the father told the police Then, he said, he married Mrs Hilda Stewart The first intimation of the tragedy, he said, reached him late yesterday, when one of his other sons called the neighbors, asking to have them send for a doctor Little Ralph was unconscious when the doctor arrived He died shortly afterwards.

Mrs Lowe was taken into custody She declared the lad was incorrigible and had wilfully disobeyed her Then, she says, she attempted to shake him. "That's the last I remember," she said 'The next I knew, one of the boys was wiping my face with a wet towel I was lying on the floor and in a corner across from me lay the body of Ralph."

The woman will be held to the grand jury.

Mansfield, Aug 11. —The grand jury, in its third session, considered nineteen cases and returned nineteen indictments Among those indicted are County Auditor William F. Fisher, four true bills charging him with uttering and publishing false checks for various small amounts, the largest being for $84 He gave bond for $5 000. County Surveyor Bond Wierman and Charles Huber, a deputy in the office of the county auditor, were indicted at a previous session of the grand jury which has been recessed for the third time.

The indictments of the county officials grew out of the examination by State Examiner Irvin Young, of Mt. Vernon, who has been going over the records since October. A representative from the office of Attorney General Price will assist in the prosecution of the cases because some of the funds alleged to have been embezzled belonged to the state highway department

NO MARKET FOR BONDS HALTS STREET PAVING

While Residents in Some Sections Pester Officials.

A number of the residents of Silver and Leader streets have been making appeals to members of the city council and city officials in an effort to have those thoroughfares resurfaced. Legislation for the improving of the streets has been passed by the council, but the city officials are unable to proceed with the work on account of the inability to sell bonds at this time For the same reason a number of improvements in the way of sewer and sidewalk construction are being held up

According to some of the residents of Silver and Leader streets, the H P Streicher company would resurface the streets and accept the bonds for the amount of the improvement. According to an opinion rendered by the attorney general, May 24, 1921, this would not be in accordance with the law and in addition, the cost of resurfacing would not include much of the expense that would be incurred.

The opinion of the attorney general reads as follows:

"Village officials are without legal authority to require a stipulation in a contractor's proposal requiring said contractor to accept improvement bonds in lieu of cash Section 4222 G. C. stipulates that payments are to be made in cash, and such provision is for the protection of the public and it is against public policy for village officials to collude with contractors in a manner which virtually operates as a discounting of said bonds"

Mayor T. E Andrews stated this morning that he realized the street were practically impassable, and that the city would take steps to make repairs of a temporary nature to put the streets in better shape until such time that the bonds can be disposed of to properly re...face them.

GREAT CHANGES IN TAX LEVIES

Committee Takes Action on Various Tax Items.

FORMAL STATEMENT IS GIVEN PUBLIC

List of Items from Which Tax Will Be Lifted—Provision for Heads of Families.

Washington, Aug 11—Even more extensive changes in tax levies than were agreed upon at the white house conference between President Harding and Republican leaders of the house of representatives were voted tentatively by the majority members of the ways and means committee As summarized in a formal statement the committee action included

Repeal of the excess profits tax, effective Jan 1, 1921

An increase of the income tax on corporations from 10 per cent to 15 per cent, with $2000 exemption retained, effective Jan 1, 1921

Repeal of all taxes on the transportation of freight and passengers and on seats and berths, effective Jan 1, 1922

An increase in the exemptions to heads of families on account of dependents to $400 for each dependent, instead of $.00, as at present, effective Jan 1, 1921

Repeal of the so called luxury taxes on clothing apparel, effective Jan 1, 1922

Exemption from income tax of the first $500 of income from stock held in building and loan associations

Revisions of existing taxes included:

Repeal of the tax on fountain drinks and substitution of a flat tax of 10 cents a gallon on all fountain syrups, to be paid direct by the manufacturer or maker

Repeal of the stamp taxes on toilet preparations and proprietary medicines and substitution of a manufacturer's tax of 5 per cent on the sale price

Removal of the 15 per cent manufacturer's tax on cereal beverages and the levying of a manufacturer's tax of 15 cents per gallon

Substitution of a manufacturer's tax of 2 cents a gallon for the present 10 per cent on soft drinks sold in containers

Members of the committee estimated that these changes would result in a net reduction of $755,000,000 in the total yearly tax bill This is $45,000,000 below the estimate reached at the white house conference, but it was explained that the estimated revenue from corporations would be $45,000,000 greater than heretofore reckoned by reason of the repeal of the excess profits exemption of $3,000 plus an amount equal to 8 per cent of the invested capital for the taxable year.

DR. JAMES W. M'MURRAY DELIVERS FINE TALK

Before Kiwanis at Upper Sandusky Yesterday Noon.

The weekly business men's luncheon at the chamber of commerce Wednesday noon was unusually enthusiastic and definite steps were taken for the quick formation of a strong Kiwanis club in Upper Sandusky, says Wednesday's Upper Sandusky Chief. As usual a fine feed, provided by Caterer W. P. Osborn, was one of the main items. It was interspersed with Kiwanis songs. Visitors were present from Marion, Kenton and Carey. Hal P. Denton, of Cleveland, international field representative, was also present. Mr. Denton announced the following temporary officers for the local Kiwanis club: Attorney John T. Carey, president, Robert L. Hare, secretary and treasurer. He then told of the origin of the Kiwanis in Detroit and of its rapid spread over the continent. The Kiwanis movement is less than seven years old and there are now nearly 600 clubs. Last spring more than 8,000 delegates from all over the country attended the Kiwanis convention in Cleveland. He explained that for the first fifty members of a club $15 of the $20 membership fee goes to the national organization for its services. The remainedr, is for local organization purposes.

Dr. J. W. McMurray, president of the Marion Kiwanis club, gave a fine talk, telling how the club there was fostered by the Delaware organization. The Kiwanis movement can not help but improve the community in which it works. Fifty or more men working for a common cause when they are all live business and professional men of a city can not be ignored. While each could not perform a task singly, working collectively they can push through all good projects easily.

Walter T Johnson, Kenton manufacturer, and president of the new Kiwanis club there gave a peppy talk. He said the Kiwanis club today is the most important thing in Kenton. No one has been asked to join the club twice, but already it has sixty-three members. He told of the good work the Kiwanis can accomplish and of the aid that is given by state and national headquarters. Other cities have often the same problems as your own and action they have taken can be quickly learned.

W. J. Newhard, temporary president of the Carey Kiwanis club, said that Carey expects to have between seventy-five and eighty-five members and will organize Thursday. He challenged Upper Sandusky to beat Carey in the race.

Attorney John T. Carey said that although he had been temporary president less than twenty-four hours he had received telegrams of congratulations from all parts of the state. He read messages from Columbus, Cleveland, Medina, Marion, Kenton and Toledo.

Dr. I. N. Zeis, of Carey, told of the plans to organize a club at that place and said Carey will be the smallest town in the country having such a club.

President Carey said the local club will have to arrange for joint dinners with Carey, Marion and Kenton. Membership blanks were then passed and signed.

DR. HAVIGHURST WILL LEAVE COLUMBUS CHARGE

Former Marionite Is To Go to West Virginia.

Rev. Dr. C. R. Havighurst, pastor of the First M. E. church, has accepted a call to the First M. E. church, of Charleston, West Virginia and will take up his duties there October 1, says today's Ohio State Journal. Dr. Havighurst being a former pastor of Epworth M. E. church, here.

Rev. Dr. W. C. Hartinger, pastor of the church to which Rev. Dr. Havighurst is going will come to Columbus.

The exchange has been approved by both bishops interested and by Rev. Dr. T. H. Campbell, district superintendent. The action is subject to approval of the Ohio conference, which meets in Circleville, September 7.

Rev. Dr. Havighurst has served the First M. E. congregation in Columbus for six years. The church to which he is going is the leading church of its denomination in West Virginia. It is located in the residential district of the city and has the reputation of possessing one of the most beautiful parsonages in the country. Dr. Havighurst's salary will be $6,000 a year. He now lives with his family at No. 990 Bryden road.

Dr. Hartinger was pastor of Trinity church in Portsmouth, Ohio, for five years, leaving there to serve one of the leading churches of Wheeling, West Virginia. From there he went to Charleston, where he has been for six years. His daughter will enter Ohio Wesleyan university at Delaware this fall.

INCH BY INCH, MEN. SKIRTS COMING DOWN

It's Hard To Convince Some Girls, Though.

Skirts are coming down.

Inch by inch, sometimes irregularly, but nevertheless inevitably, they are coming down.

So admit the fashion leaders even those who are opposed to the descent.

It's interesting to pay a casual visit to fitting rooms of various local shops and listen to the comments made on the length of skirts. Women have become so accustomed to having them short that it seems very strange to have the salespeople insist upon having them many inches nearer the ground.

"A year or so ago we had to persuade women to wear them short" said one fitter, "now they are shocked at the idea of having them long."

Many women are willing to compromise on what is fashionably known as the "uneven" hem—here and there a point or panel hanging lower than the rest of the skirt.

Longer skirts are not yet prevalent on the streets of Columbus but the ultra-modish fall frocks that are being shown in the shops here and in other cities feature the decidedly longer skirt.—Ohio State Journal.

INVITATIONS ARE SENT OUT

(Continued from Page One.)

of the fact that the experts and heads of the army and navy will be on the ground here, it will be unnecessary to include their representative in the commission itself, or that the army and navy representation be centered in one man such as General Pershing.

Senator Henry Cabot Lodge is considered a likely choice to represent the congress due principally to his position as chairman of the senate foreign relations committee and his admitted knowledge of international affairs. There is more speculation over the identity of the Democrat than of any other personage and strange as it may seem, the name of William Jennings Bryan is being mentioned with frequency. He has a host of friends in congress and some of these do say he is the most logical choice. He is a former secretary of state, a lifelong advocate of disarmament and certainly a prominent Democrat, they say.

The name of Elihu Root, also, is being heard with increasing frequency as a member of the American commission. His friends insist that he is perhaps the best qualified man in the country to sit at a conference of this character due to his long experience in public affairs and his admitted great knowledge of Mr. Root also is considered to have a wide knowledge of the Japanese question as any man in the United States which is regarded as a big factor in the success of the conference. It is the whole conference is going to hinge around Japanese matters.

OHIO CROP OF WHEAT 27,400,000 BUSHELS

According to State-Federal Estimate for August.

DROUTH SERIOUSLY HURTS CORN CROP PROSPECTS

Hay Condition Is Generally Fair and Acreage Is About Normal.

The average yield per acre of wheat in Ohio is estimated at 12.4 bushels by C. J. West of the state-federal crop reporting service from the reports of the 1500 crop correspondents throughout the state. The estimated acreage is 2,208,000 and hence a crop of 27,375,000 bushels is indicated. This is almost a million bushels less than last year. The quality of winter wheat is estimated at eighty per cent. Oats is estimated at about a half crop from conditions on August 1, but threshing returns will apparently reduce even this low condition so as to show almost a failure of the oat crop.

The condition of corn indicates about three-quarters of a crop taking the state as a whole, with the greatest injury from dry weather in the western counties, but favorable weather conditions may overcome a part of the damage.

Wheat and Oats Declined.

Each successive report since May has shown a drop of from five to ten points or more for both wheat and oats. The wheat estimate stands at about 12 million bushels under the five year average and the yield per acre of 12.4 bushels compares with a five year average yield of 16.7 bushels. The winter wheat crop for the whole United States now stands at 542,660,000 bushels which is thirty-six million bushels less than last year and thirty million bushels under a five year average. The United States yield per acre is fourteen bushels as compared with 15.3 bushels last year. A total spring wheat crop of 213,000,000 bushels is suggested from present conditions which is four million bushels more than last year. The combined United States total of both winter and spring wheat prospects is accordingly 755,000,000 bushels of thirty-two millions less than last year.

It is practically impossible to give a reliable estimate of the oats crop in bushels for the state because of the light weight of the grain and the generally disappointing turnout of the crop until more complete reports of threshing have been received. The yield per acre and total crop will be estimated September 1 after threshing is largely completed. The crop throughout the United States [illegible] indicates a production of [illegible] bushels, a five-year average of 1,423,000,000 bushels. The amount of oats remaining on farms August 1 for the United States is estimated at 10.6 per cent. of last year's crop, or about 161,773,000 bushels, compared with 56,128,000 bushels on August 1, 1920.

Corn Prospects Improving.

The more favorable weather since the first of the month will, in all probability, result in a material improvement in corn prospects. Owing to the continued dry weather the condition of corn had declined by August 1 to about seventy-five per cent. of normal which was twelve per cent. less than last year and ten per cent. under a ten-year average and which would suggest an Ohio crop of about 130,000,000 bushels. The greatest decline was in Paulding and other heavy producing counties of the central and western sections of the state. A crop of 2,035,000,000 bushels is indicated for the country as a whole as compared with 3,232,000,000 last year and a five-year average of 2,500,000,000 bushels.

The acreage cut for hay is about the same or slightly less than last year with an indicated crop of 4,000,000 tons. The average yield of clover haw is estimated at 1.2 tons per acre which is slightly more than three-quarters of a normal yield per acre. The quality of hay is good this year. The condition of alfalfa is placed at eighty-five per cent. of normal.

Condition of Pasture.

The condition of pasture has been improved by the rains. The dry weather had reduced pasture to seventy per cent. of normal on August 1.

The quality of rye is estimated at eighty-six per cent. of normal and barley at sixty-one per cent. It appears that the state average yield of rye is twelve bushels per acre as compared with twenty-one bushels last year.

The acreage sown to buckwheat is eighty-one per cent. of last year and the condition is eighty-six per cent. of normal.

The condition of millet is eighty-two per cent. Field peas are estimated at eighty-three per cent. of normal condition and field beans at eighty-one.

Potato Supplies.

From August 1 condition reports the Ohio potato crop will be not more than half as large as last year when 11,500,000 bushels were produced in the state. The hot, dry weather cut the yield of the early crop in half and has injured the stand of the late crop in some sections but it is still possible for the late crop to improve under favorable weather conditions. The condition of potatoes throughout the central west is similar to that prevailing in Ohio, but reports indicate a better condition in Maine, Minnesota and other commercial sections.

The condition of sweet potatoes is estimated at seventy-six per cent. of normal.

In Marion County.

The average yield of wheat in Marion county this year was fourteen bushels an acre as compared with seventeen bushels an acre last year.

On August 1 the condition of corn was seventy-one per cent. of normal, oats, sixty-three per cent. of normal; potatoes, fifty-two per cent. of normal; hay, eighty-nine per cent. of normal, and pasture, seventy per cent. The average yield of clover this year is given as 1.2 tons an acre.

LOOK HERE, FELLOWS. THIS IS GOING TOO FAR

It's Going To Cost More To Get Married.

Will activities of justices of peace as performers of the nuptial deeds be curtailed as a result of a new state law which says that each J. P. shall receive three dollars for performing the holy writs of matrimony. The act will become a law on August 16, so prospective grooms who contemplate a call on a justice better shake their tongues before next Tuesday.

Not only were charges for performing marriage ceremonies increased, but others were also as a part of a horizontal increase in justice fees. During the last few years when the cost of living was soaring, the fees which were allowed to be charged by justices of the peace remained the same. The state department has just taken action on the matter, and according to the new table of rates, has advanced the charges in most instances just half.

The new law becomes effective on August 16, and a number of things on which rates have been increased are appended:

Viewing a body in a coroner's case will be five dollars instead of three dollars, and in a trial by jury the justice of the peace charge will be $2.50 instead of one dollar. A transcript in a civil case will be $2.50 instead of two dollars under the new table issued.

A justice shall receive one dollar for sitting when judgment is taken, a thing for which no charge has been exacted heretofore.

MRS. J. W. DUNLAP, OF ALGER, ALSO BANKRUPT

Security on Notes of Husband for Over $13,000

Mrs. Nellie Elizabeth Dunlap, wife of J. W. Dunlap, Alger, has asked that she be adjudged a bankrupt. Dunlap filed a voluntary petition in bankruptcy several weeks ago, listing his assets at $275,000 and his liabilities as $300,000. Inability to pay a court judgment forced him into bankruptcy.

Mrs. Dunlap is security for notes of her husband in excess of $13,000. A levy was made on her property to satisfy the claims.

A meeting of her creditors will be held at Kenton the same day that the creditors of Dunlap & Son meet, August 15.

1,241 NEW HOMES ARE NEEDED IN THIS COUNTY

According to Secretary of Commerce Hoover.

ONE FAMILY IN SIX WITHOUT ITS HOME

Will Require About $3,000,000. Building-and-Loan Assets of $7,600,000.

There are 1,241 new homes needed in Marion county. That is, this many new homes must be built, according to estimates just made by the United States department of commerce, if every family in Marion county is to be properly housed.

At the present time one family in six in this county is without its own home. Building, on the scale urged by the department of commerce, also would go a long way toward beating down high rents charged in many places.

The above figures have been given building and loan institutions, which, according to Secretary of Commerce Hoover, are the chief agencies for home building.

To build the estimated number of homes needed in the entire county will take approximately $3,000,000.

The assets of all the building and loan institutions in this county are $7,600,000, but nearly 100 per cent. of these funds already are loaned on homes and these financial institutions at the present time are handicapped through insufficient funds in relieving the shortage of house-building funds.

RAIN TODAY WELCOME. BUT MORE IS NEEDED

August So Far Is Blue Ribbon Winner.

Don't hear very many people yipping about the weather lately? Of course, there are always those of the grouch who whine about everything. But, honestly now, hasn't this been glorious August weather?

The rain today was needed. And still more of it is needed.

No one can remember far enough back to recall an August of such great nights to sleep. If it's hot in the day, then it's cool at night, so that the well and the sick can sleep.

People living in Marion are congratulating themselves for living here. It's worth while, they'll say. But at the same time—

Why is it that money will shout to a rich guy through a megaphone and stutter in a whisper to a poor gink?

Races, contests and a tug of war were also enjoyed during the afternoon. The Rev. Mr. Ruf of Urbana, gave a short talk on the building of the Chautauqua and the good it would do in the community.

RETREATING

ON A BASIS OF JUSTICE.

It seems that the British and Japanese governments designed to make a test of the Americanism of the present administration when a "preliminary" conference of the three powers was proposed to discuss in secret problems of the Pacific that shall properly come before the international conference invited to assemble in Washington this fall. Well, they found it 100 per cent.

As we are informed now, the British and Japanese knew it was hopeless to suggest a tripartite alliance by treaty, the United States becoming the third member, in succession to the Anglo-Japanese alliance, but they did think "some larger arrangement" might be entered into which would serve their purpose. The United States was not to be caught by such bait. The conference on limitation of armaments and the Pacific questions is not designed, by America, to be productive of private arrangements for selfishness of a few mighty powers. What this nation desires is abolishment of all military alliances and the ordering of international relations on a plane of justice with all countries sharing in the benefits.

The United States if looking ahead. If the Washington conferees can reach an understanding as to common rights in the Far East, having due regard to the inextinguishable rights of the several peoples of that section of the world, a noteworthy step wil have been taken toward realization of more just conditions all around the globe. If the approaching conference should yield the results of which it is capable, we should be within measurable distance of that association of nations formed for the promotion of peace on a basis of justice which the administration is pledged to strive to bring into being.

The average reader will incline to the view that a lot of fuss is not absolutely essential to the selection of a good municipal ticket.

We note that a seventy-eight year-old woman has won the archery championship by making ninety-eight bulls'-eyes out of a possible hundred, but it's hardly likely that we will get a chance to see a picture of her since prohibition is here.

To be fair to the railroads it should be remembered that Mr. Ford is something of a financier. He might even be able to make big money by reducing freight rates on a privately-owned, run-down road purchased for a song and run at a loss, if thereby he accomplished a general reduction on the lines over which he hauls his materials and supplies.

THE LAND OF OPPORTUNITY.

Although the immigration restriction law has ended the reports of plans for bringing foreigners here at an unprecedented rate, the frantic racing to get monthly quotas under the limited arrangements in on the first day of the month—in the first minutes of it—emphasizes the constant eagerness of many in other lands to emigrate to the United States. America continues without a rival to be viewed throughout the world as the Land of opportunity.

After hearing of vessels bearing immigrants held up outside the three-mile limit of New York on account of the exceeding of July quotas for entry, there are reports now that August quotas already have been reached. Indeed, due to such racing on July 31, it is asserted that the Greek, Turkish and other small quotas were crowded in the first two minutes of August 1. One ship lost because a Bolter crossed her bow. The immigration commissioner is declared willing to admit under bond the 400 or so August quota now in harbors, and begin with a clean slate if the steamship companies will reach a bus ness agreement among themselves not to exceed quotas hereafter.

LIFE'S VAUDEVILLE.

[By Dr. James Ball Naylor.]

INTEMPERATE STATEMENTS.

Nothing is ever gained, permanently, by overstating a case.

Intemperate claims frequently defeat the very ends they are intended to further favorably.

But how easy it is to grow too enthusiastic in a cause—and to do and say things that are ill-advised!

Miss Hannah Protzman, working under the joint auspices of the Ohio state department of public instruction and the Red Cross, has completed a survey of ten counties of the state.

For what purpose was the survey instituted and made?

"To obtain data to support arguments in behalf of the Bing bill, just enacted into a law, which provides, among other things, for a part-time attendance officer in every county of the state."

In other words, those interested desired that the Bing bill—providing for county truant officers—become a law; so they sent Miss Protzman out to obtain material for propaganda favorable to the project.

And did the young woman discover such material?

Naturally!

That was her mission; that was what she was expected to do—was sent out to do.

Did Miss Protzman find the need of county truant officers in the state of Ohio?

Of course she did! What else would you, or could you, expect? There are eighty-eight counties in the state, and each one must have a truant officer. That means eight-eight new jobs for eighty-eight worthy educators.

But I desire to call attention to a few—just a few—of Miss Protzman's very remarkable findings.

She found one woman who said to her:

"Why, all you need is readin' and' writin', an' very little of that."

Did the statement of that one ignorant woman impress Miss Protzman, impress her with the urgent need of truant officers in every county in the state?

It did!

So she goes on to say: "The survey showed that poor attendance prevails throughout the state, rather than in one particular section. Often I felt as though I were in a foreign country, the ways and the attitude of the people being so surprisingly in contrast to what one would naturally expect in a community in one of America's foremost states."

Probably I know the rural districts of Ohio as well as Miss Protzman can ever know them, and I desire to say that I consider her statements grievously intemperate.

However, she goes on: "The backwardness of some of the people I interviewed was simply staggering. The statement of the woman I have just mentioned is an illustration. There were some places in one of the wealthiest counties of southern Ohio in which hardly a word of English is spoken."

Name the county and the places, Miss Protzman! I've been well over southern Ohio—many, many times—and I've never found such conditions, even in the mining towns with their large foreign elements.

We see and hear some strikingly odd things these days.

6th JIM DUGAN'S anniversary sale

A MIGHTY IMPORTANT CUT PRICE WAVE

AUGUST 11th TO SEPTEMBER 3rd.

Has Swept Through Our Store in Celebration of Six Years of Growth and Prosperity

STARTLING REDUCTIONS IN OUR ENTIRE STOCKS

A Score of Clothing Manufacturers and Distributors join us in presenting most astonishing values

When our doors swung open this morning, they opened up the biggest clothing opportunity that Marion and the surrounding towns have ever known. It's the opening day of the Sixth and greatest of our Annual Clean-Sweep Sales.

JUST six years ago today, this store opened its doors and started something entirely new in the clothing business in Marion—started a store with a firm business policy of selling America's finest nationally-known, guaranteed quality clothes for spot cash on the smallest possible margin of profit, appealing to the large buying public on a strong economical basis.

THAT this policy has touched the real wants of the public, far beyond our fondest expectations, is shown by the continuous and phenomenal growth of our business in the short space of six years.

Prices at Rock Bottom

IN celebration of our Sixth Anniversary as an expression of appreciation of these six years of patronage, we have put our shoulders to the wheel and pushed prices back to practically where they were in 1915 when we started in business in Marion.

IT is your golden opportunity to buy your season's needs in clothing at startling reductions from our regular cash saving prices.

IT is our glorious opportunity to renew hundreds and hundreds of old friendships and greatly extend our ever-increasing circle of satisfied customers.

EVENTS MOVING FAST IN TENNIS SINGLES

Probable Elimination Setto Will Be Run This Week.

RICHARD SCOTT WINS FROM LORAN ALLEN

Scott's Next Match Is with the Veteran, Robert White. Doubles Bulletined.

All but three matches in the third round of the Clark cup tennis tournament were finished up yesterday and it is probable that the elimination setto may be completed this week. In yesterday's play Dale Miller defeated Glenn G. Smith, 6-1, 6-2; Robert White downed Carl Dombaugh in two love sets, and Richard Scott won in two sets from Loran Allen with scores of 6-3, 6-4. The last match was expected by many to be a close and hard battle. Although Allen was up to form, Scott seemed to be playing far above par and experienced little difficulty in downing his opponent. Scott's next match is with Robert White, veteran racquet wielder. If Scott beats White he will have defeated three of the best players in the club and will have earned a place in the semi-final round.

Jones-Miller Match.

The Jones-Miller match also promises to be one of no little interest, as both are players of ability and use the same style of game.

Drawings and classifications for the doubles tournament were posted on the bulletin board yesterday and play will start immediately. Nine teams are entered with the following classifications:

Scratch, Hane and Hane; first class, Allen and partner, White and Miller; second class, Jones and Young, G. Allen and L. Allen, Scott and Dreher, Tennis and Smith, Von Kaenal and Foos, C. H. Allen and Weeks.

A junior boys' singles tournament has also been launched with an entrants list of twelve.

List of Participants.

The winner of this tournament will be presented a pair of tennis shoes furnished by the John Stoll Shoe company. The participants are all placed in one class, the list being as follows:

Robert Stoltz, Myron Gibson, Guy Stoltz, Ward Adams, Newton Cunningham, Ralph Burke, Homer Kidd, Thorley Sargent, Robert Gibson, George Fellmeth, Theodore Cunningham and Dwight Foreman.

Two first-round matches were played in this tournament yesterday with the following results:

Ward Adams defeated Guy Stoltz, 6-3, 6-2; Sargent defeated Kid, 6-2, 6-1.
